

Simultaneous Interpretation with Zoom: User Instructions

1. **Join by scanning the QR Code** to the scheduled Zoom meeting on your personal device using the Zoom app.

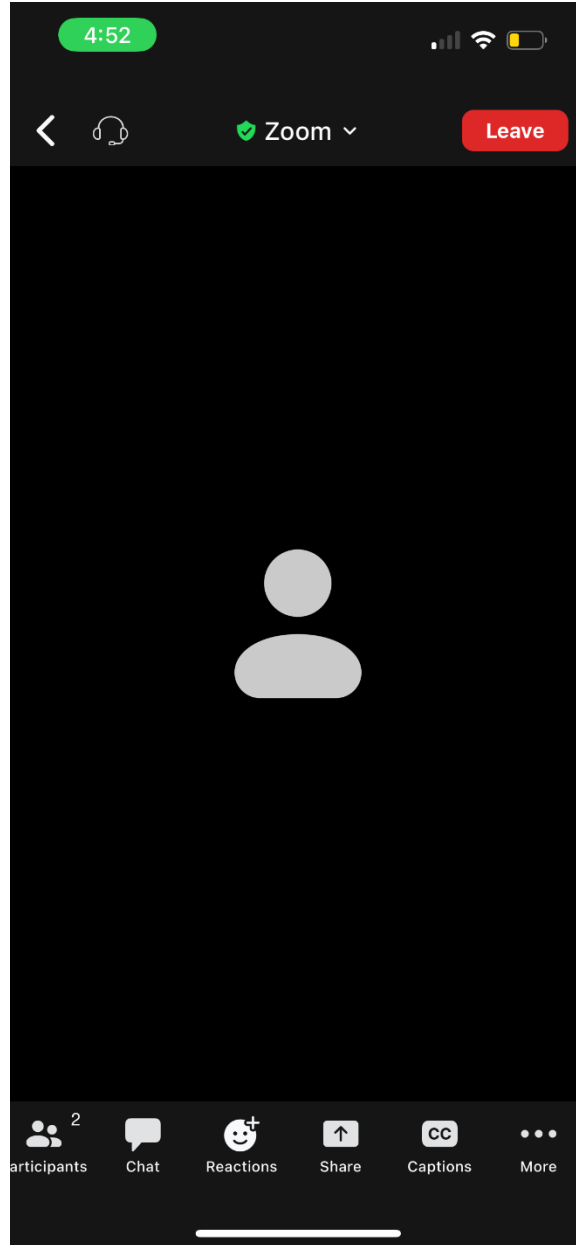

2. Be sure to select **Wi-Fi or Cellular Data** for meeting audio. Interpretation will not work with dial-in audio.

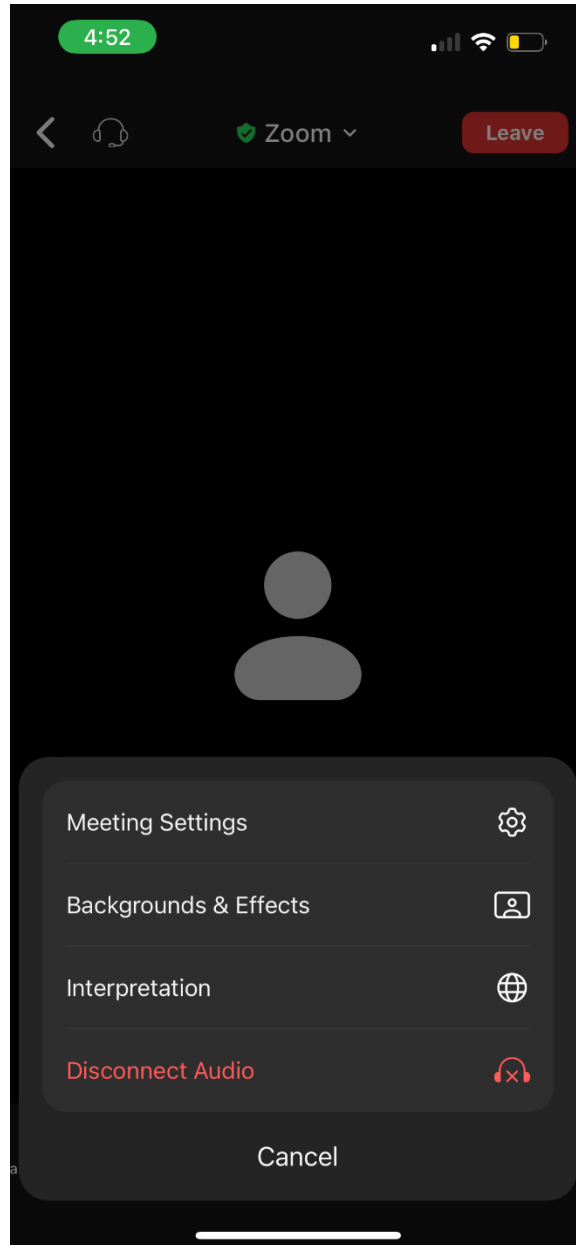

3. Open the **bottom menu** and scroll all the way to the right. Then, click **More ...**

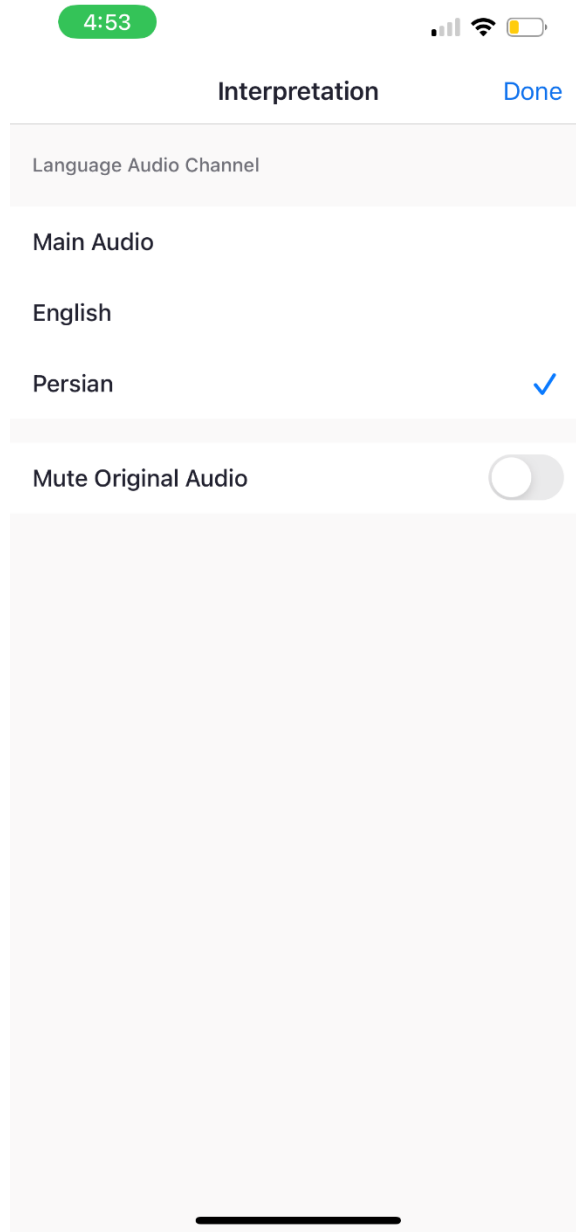

4. Select **Interpretation**.

5. Select your **desired language** and then click **Done** in the top right-hand corner.

6. You will now be able to listen to the interpreter speaking your desired language. Consider using headphones to minimize disruptions. Note the addition of the **language label** in the top left-hand corner indicating your current language.
